A Project of the Jeffco Student Health Advisory Council

ALL MY NEIGHBORS

An activity to learn random facts about classmates.

Time
5-10 Minutes

Group Size
10-30 Students

Materials
Chairs

INSTRUCTIONS

1. All students are seated in chairs arranged in a circle in the classroom.
2. One person is chosen at random and stands up, and their chair is removed from the circle.
3. The student in the middle says "All my neighbors who [something the speaker has done or something that applies to the speaker]" (ex. All my neighbors who have been rock climbing, all my neighbors wearing blue socks, etc.)
4. Seated students who fit into that category stand up from their seats and scurry for a new seat to sit on.
5. There will be one person left in the center of the circle. This person without a seat says the next "all my neighbors" statement.

DISCUSSION QUESTIONS

- What did you learn about people you didn't know before the game?
