

RecipeCards

A Project of the Jeffco Student Health Advisory Council

TEAM ARCHITECT

An activity to allow students to work together and get to know each other.

Time

20-45 Minutes

Group Size

30 Students (groups of 2-5)

Materials

Something to build with (Example: popsicle sticks, newspaper, etc.) and glue/tape.

INSTRUCTIONS

1. Split students into small groups of 2-5.
2. Give students materials.
3. Give students a task (i.e. make a building with spaghetti and marshmallows, make a bridge with popsicle sticks and glue, etc.)
4. Allow students time to work on their creations.
5. If time permits, students can present them to the class and vote on the best structure.
